This is probably due to your logo being larger or smaller than 120 x 60. Logos must be 120 x 60 pixels in size. If your logo continues to look distorted please contact customer service at (866) 627-2467 or email: customerservice@mediabrain.com.

Yes, you can upgrade in the Advertiser Center or contact us at MediaBrains for assistance. Go to www.mediabrain.com, click "Client Login". Once you are logged into the Advertiser Center click "Category Placements" to upgrade.

What is the difference between a "display link" and a "destination URL"?

The display link is text that a user can see. When a display link is clicked it uses the "destination URL" to go to a particular page. For example, the commonly used phrase "Click Here" is the display link, while the destination URL is the page within a website, such as your home page, that the users sees after they click.
